General Guidelines for the 3rd International Conference of HCIA

These guidelines are for the conference participants (presenters, chairpersons, and discussants) to establish expectations.

1. The entire conference will be conducted in English.
2. The presenter will be briefly introduced by the chairperson of her/his session before presentation.
3. **Presentations:** There are **30 minutes** for each presentation. If a presentation ends early, the remaining time will be moved to its discussion time. Each presenter will be reminded with a short bell ring at the last **3 minutes** and twice while time is up. After the presentation time expires, the bell will ring every **30 seconds**.
4. **Discussions:** After all presenters of each session have finished presenting, there will be 20-30 minutes for discussion (in principle, each presenter can be allocated **10 minutes** for discussion). Discussants are allowed up to **5 minutes** to speak. The bell will ring once in the last **30 seconds** and twice while time is up to remind discussants of the time.
5. The chairperson may appropriately adjust the end time of the session based on the special circumstances of the session she/he is responsible for without affecting the overall agenda.
6. The application software and link URL used for online presentation will be announced separately.
